

Maya Sharma
maya.sharma@mit.edu | github.com/mayasharma

EDUCATION

M.S. Data Science, MIT, 2023-2025, GPA: 3.9

B.S. Statistics, UC Berkeley, 2019-2023

SKILLS

Technical: Python, R, SQL, TensorFlow, PyTorch, scikit-learn, Pandas, NumPy, Matplotlib

Tools: Jupyter, Tableau, Power BI, Apache Spark, AWS SageMaker, dbt, Airflow

Databases: PostgreSQL, MySQL, MongoDB

EXPERIENCE

Data Science Intern, DataAnalytics Corp, May 2024 - Aug 2024

- Developed predictive models using XGBoost achieving 87% accuracy on churn prediction
- Built automated data pipelines processing 5TB daily using Apache Spark
- Created executive dashboards in Tableau reducing reporting time by 60%

Research Assistant, MIT AI Lab, Sep 2023 - Present

- Conducting research on transformer architectures for time-series forecasting

PROJECTS

Customer Churn Prediction: Python, scikit-learn, FastAPI, Docker, XGBoost

NLP Sentiment Analysis: BERT, PyTorch, Hugging Face, fine-tuning
